

# **BEYOND NATURAL DISASTERS**

---

Managing Critical Events in Congregate Settings

**Linda Glasson**

Routine security issues can go beyond normal  
in a split second...

Are you prepared?

Have you conducted or had conducted a  
Security Hazard Vulnerability  
Assessment(HVA) ?

Violence Continuum ranges from bullying  
to murder.

Not all shootings are active shooter.  
Dead is dead.

# Prevention is better than reaction

- Access Control
- CPTED
- Identification of individuals in your facility
- Processes/ procedures
- Training

# A six step approach to dealing with violence (RAPDEE)

- Recognition
- Alert
- Preparedness
- Design
- Education
- Enforcement

# Five step approach to violent incident or aggressive behavior

- Evaluate
- Plan
- Implement
- Document
- Review

What are your reporting requirements?

Have you done that?

Fire, Police, & Local EMS can serve as resources as you develop/upgrade applicable facility plans

Who at your facility is qualified to perform security functions & emergency management?

Do you have an ongoing  
relationship with the locals?

What's next?

# Active Shooter- Planning & Response

Department of Homeland Security

Healthcare & public health sector coordinating  
council

OSHA proposed rule on violence
